

Directing Clinicians in Medical Ethical Decisions

Are you a

- Are you a **Respiratory Therapist** and unsure about the laws regarding a terminal extubation?
- Are you a **Clinician** that is being told that you are providing futile care?
- Are you a **Nephrologist** being told not to Dialyze certain patients?
- Are you a **Gynecologist** unsure whether to render care that might be Halachically problematic?
- Are you a **Gastroenterologist** being pressured not to offer tube feeding for demented patients?

Understand the Halacha.

Direct.

Navigating ethical dilemmas or conflicts with Torah values in patient care can be challenging. The Rabbi-clinician collaboration of Chayim Aruchim Institute for Halacha and Medicine is dedicated to offering Halachic guidance for healthcare professionals. No matter your clinical specialty our emphatic collaboratiion is here to assist you.

 **718-907-6453** *Don't face ethical challenges alone.*
